

NuMI Beam Simulation - Bug #4183

Eliminate geometry overlaps

06/20/2013 01:33 PM - Robert Hatcher

Status:	New	Start date:	06/20/2013
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Description			
Use geant4 and root to find overlaps in the geometry. Eliminate these in hopes of resolving the issue with flugg/fluka where it gets stuck for certain combinations of code versions and compilers. Fluka developers are unlikely to give any new support until we can say that there aren't any overlaps.
